The Droplet

For The Love of Trees

Issue 13

12/02/24

Valentine's
Edition

Seeing as St. Valentine's Day is in a couple of days, Birmingham TreePeople wanted to spread and share the love of trees!

Maybe you're thinking of taking a special someone out to celebrate, but as we know this day can get rather busy, so why not follow a Friends' [Tree Trail](#) in the park instead? You could even take a romantic picnic, music, and books.

Being amongst nature and green space is scientifically proven to improve your mental health and well-being, but not only that, it provides spaces away from the hustle and bustle of urban, city life. The stillness and rustle of leaves and twigs would provide a natural, relaxing atmosphere for a connecting walk with a loved one, friends, family, and by oneself for peace of mind.

Get amongst the trees and share the love!

Katy Hawkins, BTP Engagement Officer, hugging Stevie Sweetgum, the Liquidambar planted in Hodge Hill with the overwhelming help from FOHHC.

As some of our volunteers will be aware of from previous issues, we have launched the [Tree Tales submissions](#) page on our website (link bottom left), so we can all submit writing, drawings, videos, voice recordings, etc. about our connection with and love for nature through memory. If you have a story you'd like to share with us, it will be posted as an anthology on our website, celebrating our love for not only urban trees, but all trees!

**TREE
TALES**

The [Droplet](#) is a fortnightly treeformative flyer for our [mailing list](#).
The monthly newsletter, [Birmingham Roots](#), is also available.
